

HOUSTON COUNTY CERTIFICATION OF DESIGN

RE: SUBDIVISION NAME _____

DEVELOPER NAME _____

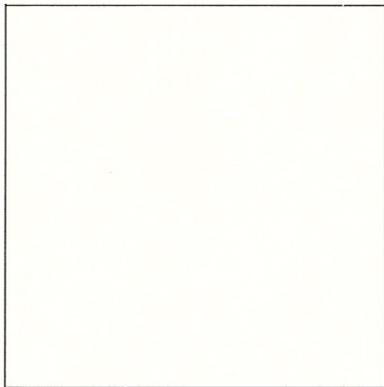

ENGINEER/SURVEYOR NAME: _____

BE IT KNOWN THAT:

As the Registered Land Surveyor or Professional Engineer registered in the State of Georgia performing the design of storm water piping facilities and structure for the (Development Name) _____, I certify the following:

1) Due to the location of this development being in the lower portion of a large drainage basin, storm water detention/retention could be detrimental during a rainfall event greater than a twenty-five (25) year frequency. However, I have designed the storm water drainage system to prevent any damage to down stream properties that might occur from an increase in storm water runoff and flow rates.

2) That all storm water structure and piping is designed to provide adequate hydraulic flow capacity without any surcharging for a twenty-five (25) year rainfall event.
